

## LEED VERIFICATION DOCUMENT: VISTA SYSTEM

This document verifies **Vista System Signage Products** help project teams earn **LEED® Certification** for **New Construction** projects filed under the LEED NC/MR system version 3.0.

Product Name	LEED Category	LEED Points
Vista System Signage Products	Innovation in Design	1

**Vista System Signage Products** provide design teams and projects the opportunity to achieve exceptional performance above the requirements set by the LEED Green Building Rating System. Projects that wish to qualify for LEED credits for this product should file a request for an Innovation and Design credit in the LEED Online portion of the LEED application. Some of the environmental qualities of this product include:

- These products utilize recycled or recyclable aluminum, steel, and plastics, the durability of which ensures the longevity of the product
- The signage components are modular and can be easily separated, thereby enabling efficiency in the replacement and/or recycling of signage components
- The frame of the signage system allows easy updating of the insert without having to replace the whole sign. This makes the product more natural resource friendly.
- Projects that are targeting the LEED Innovation in Design – Education and Outreach credit can use Vista signage products to qualify for that credit.

This product has been reviewed by a third party **LEED Accredited Professional**. If you have any inquiries about how this product helps projects qualify for LEED Certification credits then please feel free to contact us using the information below.

Sincerely,

Vincent Bataoel, LEED AP
